edge that there are particular reasons why financial powers of a higher degree than those just described should be very destrous of seeing the market for Union Pacific common stock, and, perhaps, one or two other securities, stand at as high a level as can be established for a week

Privilege Expires July 10.

There will expire on July 10 the privilege of subscription by the Union Pacific stockholders to the new \$75,000,000 convertible bonds, issued by the management of the company. It is obviously greatly to he advantage of the underwriting syndicate, formed to guarantee the success of this undertaking, that as many subscribrs as possible avail themselves of their subscription rights, since & the tent that the stockholders take bonds, the underwriting syndicate will not have to make good any deficiency in the sums guaranteed to the company.

Memae Gold Mining....

Nevada Consol.....

Nevada-Utah Copper.

Standard Oil......

Standard Oil......

There was a good deal of cynical refer-gace in Wall street to-day to the fact that when this bond issue was first ana movement was observed in

Union Pacific stock very similar to that which has recently been carried on. At the outset of trading to-day, prices were a little lower than they closed yeswere a little lower than they closed yes-terday, liquidation being impelled by the unexpected announcement after the close Atlantic of business yesterday of resumption of Bingham gold exports and a quieting down of activity in the foreign markets; but after a Hittle preliminary selling of stocks, the up-ward march of the market went on and Copper Range....... Edison Electric Illum. held with only occasional pauses and re- Fitchburg pfd. cessions until the close of business

Union Pacific Takes Tumble.

Just before the end of the business day. Union Pacific stock broke violently from its high level price, so that its net gain for the day was relatively small; but ad- United Fruit. vances of from one to two points were common elsewhere, most of the leading Utah stocks closing at the day's highest quota- Victoria . Wheat prices, which were higher most

of the day, closed a little lower on realiz-

ing sales, and there was likewise a similar profit-taking movement in progress among speculators for the rise in cotton futures. although in the morning hours of business the excited buying of cotton that took place yesterday was again carried on. One time during the day, further engagements of gold for Europe were almost concluded, but were declared off owing to a slight fall in the rate of sterling in Paris. Sterling exchange here remained inchanged, despite yesterday's batch of

metal remittances, and the maintenance of high call money rates here.

Very little attention was paid to-day in Wall street to the threatened strike of telegraphers or to the routine reports of railway earnings, which again attested the inroads upon gross earnings made by

increased expenses.

The Union Pacific's earnings for May increased in net \$371,000, as against a gross increase of \$1,270,000, and the Southern Pacific's May net earnings fell to \$158,000 from an increase in gross of \$2,132,000.

COTTON MARKET.

The local Stock Exchange yesterday of the New York Stock and Cotton Exchanges and the New Orkans Cotton Exchanges, 1333 F street

northwest.

New York, July 3.—In view of the sharp advance yesterday the market may be said to have done well to-day. Prices were carried still higher in the carly dealing, but there were moderate temperatures in Texas, which weakened some holders, and the receipt of some rain reports from the same State prompted liberal selling, followed by sharp declines and rallies, the net result being 12 points loss by midday. The Texas rains covered a pretty wide territory, and ranged as high as one and three-quarters inches at some stations, and only three stations in the State had as much as 100 temperature. Bull confidence was in no wise abated on account of the set-back, belief in a much higher market being made to force prices off by the bears, who still profess lack of confidence in the bureau figures. Reports are accumulating of small plant everywhere, such in Texas not yet chopped, and conditions in many sections no further advanced than should be by the middle of May. The crop is so backward and poor that selling will be attended with the greater danger until decided improvement is shown, and any material change to insure an ample yield seems to be out of the question.

Laverpool due 5½ to 7 lower to-morrow morning. orthwest.

New York, July 3.—In view of the sharp adve of the question, Liverpool due 5½ to 7 lower to-morrow morning.
